Please find below and/or attached an Office communication concerning this application or proceeding.

Art Unit: 3627

This is in response to our telephone conversation with respect to application Serial No. 09/545,875 on July 21st indicating that references applied in the June 30, 2003 Office action were not cited on a PTO-892 and no copies of these references were provided. Since the references were identified only by name in the Office action and did not include the patent numbers it wasn't possible for applicant to determine what references were applied. In order to correct this oversight on the part of the Office a copy of the PTO-892 is attached to this communication along with copies of the two references. In addition since the Office was notified of this deficiency within 1 month of the mailing date of the Office action the time period for response to the Office action is being restarted.

Applicant's time period to respond to the June 30, 2003 Office action is now set to expire 3 months from the mailing date of this communication.

If applicant has any questions with regards to this communication they are welcome to contact Supervisory Patent Examiner, Bob Olszewski, at 703-308-5183.
